

THE DOLLI[®]

AT ACROPOLIS

A proud Athenian lover, the Dolli pays homage to its astonishing neighbours and honours the personal discovery journey of each guest. Surrounded by history and bursting with energy, witness human creation at its purest and greatest, featuring 46 luxurious rooms, suites and apartments, all including breathtaking views of the legendary Acropolis.

The ancient Macedonian emblem on the building preserved and restored in the ceiling motifs of the lobby and the halls in every floor, as conceived by Andreas Kriezis. A symbol widely used by the Ancient Greeks to decorate coins, vases, frescoes and statues, its 4 vertical rays symbolize the 4 elements of nature and the other 12 the 12 gods of Olympus.

Once a decaying monumental building situated in the center of the vibrant and wondrous old town of Athens, the hotel has become an exceptional hotel maison.

Dine at the four breathtaking restaurants with extraordinary views: the rooftop all-day bar and restaurant features an exceptional savoir-faire with the finest ingredients, enjoy your assorted coffees, herbs & teas, local & international wines, delish nibbles & small plates at The Salon, or perhaps enjoy your brandies and spirits at the intimate and seductive Le Bar Secret. The Library of Le Bar Secret and its relaxing ambience allows travellers and Athenians enjoy all-day dining or indulge in splendid desserts. Perhaps you would prefer in booking a private spot with a breath-taking view of the Acropolis at the pool lounge (open only from April to September).
